

STUDENT SPEECH AND PUBLICATIONS

Students shall have the right to express their views in speech, writing, or through any other medium or form, limited solely by those restrictions imposed on all citizens generally and those specifically applicable to children and youth in a school setting.

The Board of Education encourages student publications not only because they offer an educational activity through which students gain experience in reporting, writing, editing, and understanding responsible journalism, but also because they provide an opportunity for students to express their views and a means of communicating both within and beyond the school community.

All student publications will comply with the rules for responsible journalism. Libelous statements, unfounded charges and accusations, obscenity, false statements, materials advocating racial or religious prejudice, hatred, violence, the breaking of laws and school regulations, or materials designed to disrupt the educational process will not be permitted. Expressions of personal opinion must be clearly identified as such, and bear the name of the author. Opportunity for the expression of opinions differing from those of the student publishers must be provided.

Distribution of Literature

Students have a right to distribute literature on school grounds and in school buildings provided such distribution does not interfere with or disrupt the educational process. The Principal retains the right to review all literature prior to its distribution.

The Superintendent shall establish guidelines that are in keeping with this policy and shall provide for the review of the content of all student publications prior to their distribution.
