

STAFF-STUDENT RELATIONS

The Board of Education accepts the principle that the relationship between staff and students should be one of cooperation, understanding and respect. Staff members shall be expected to regard each student as an individual and to afford each the rights and respect due to any individual. Students shall be treated with courtesy and consideration; students are expected to treat all staff members with respect and courtesy. No student shall interfere with the efforts of the instructional staff nor interfere with the learning activities and efforts of other students.
