About this guide

We want to address your questions and concerns quickly and effectively.

In order to do so, please contact the staff member most directly involved first. If the question remains unresolved, please proceed to the next level. When someone contacts a Board of Education member or a district administrator before working through the process, they will be referred to the staff member most immediately involved with the issue. The Board of Education will become involved, if necessary, in the final stage of the process.

The Board's primary responsibility is to set policies for the school district. While individual Board members listen to concerns, the Board can only act as a governing body when it is convened in an official meeting. The superintendent and administrative staff are legally empowered to administer the school district and operationalize the policies and decisions of the Board.
